

Application Serial No.: 10/618,306
Art Unit: 3749

Attorney Docket No. 12016.01
Confirmation No. 4384

IN THE SPECIFICATION

Please replace the paragraph at page 9, beginning at line 16, with the following amended paragraph:

--Four smaller L-shaped flanges **24** are also attached to the upper portion **16** of the vent **10**, as seen in Figs. 4 and 5. The smaller flanges **24** extend outward from the front wall **11** of the vent **10** and are positioned near the annular flange **19**. Each of the smaller flanges **24** has a single aperture **24A** used to secure the vent **10** to the drywall **D** through which the annular flange **19** passes and thereby provide added stability to the annular flange **19**, as shown in Fig. 2.--
